

Notice Regarding Vision Plans!

Patients are required to present insurance or discount plans at scheduling and prior to receiving services. Vision plans are often administered by a separate company from your main medical carrier and often do not supply an ID card. Most medical insurance cards also do not indicate if, or with whom, there is vision coverage.

Vision Plans currently accepted are:

Vision Service Plan (VSP)

Spectera,

Superior Vision Plan (SVP)/Davis Vision/Versant

Avesis

EyeMed

Community Eye Care/CEC

This list is not exhaustive and does not include all participating or non-participating plans.

If you are unsure whether you are covered for vision under a vision carrier or if you have vision benefits with your medical carrier – please consult your benefits booklet, contact your insurance company, or your employer’s human resources department before your appointment. Please note that the above information may change without notice and is not inclusive.

To confirm that this practice offers coverage with the above listed providers, or to ask if coverage is available under a carrier not listed above, please call 512-427-1100.

Thank You!
